The Oldest Engineer to the Country.

Baltimore Sun.

The Baltimore and Ohio will send to the Chicago Railway Exhibition the oldest engineman in America. His name is Tom Galloway, and he has been in the employ of the company ever since 1833, just half a century. He was born September 25, 1809, in Baltimore country, and is of Scotch descent. He was first employed as train-dispatcher, but afterward took charge of the "Lafayette" as engineer. He has been running almost continuously since on the Washington branch. The only change of ronte was in 1857, when he ran for four months from Baltimore to Martinsburg and return. Taking out these four months, the old gentlem an has been running for 42 years between Baltimore and Washington, averaging 16 trips a week. He has, therefore, made 34,944 week. He has, therefore, made 34,944 tripe in all, and, as the length of each trip is 40 miles, has traveled 1,397,796 miles, 56 times the circumference of the earth. He has only had two accidents, and they were so trifling that they are not worth mentioning. He has had 12 children, 10 of whom are now iving. One of his sons is a conductor on Himois Central, 462; Pennsylvania Central, he Baltimore and Ohio; another is "boss" of 412; New York Central, 24; Erie, 352; Erie the machine shops at Garrett, Ind., and another is an actor in Maggie Mitchell's seconds, 97; Reading, 275 New Oursell Maggie Mitchell's other is an actor in Maggie Mitchell's troupe. He has a grandson a brakeman on the road. Father, son and grandeon, working at the same time, on the same road, is a notable circumstance, and the only one of the control of the contro notable circumstance, and the only one of the kind known. Mr. Galloway has never been sick, and is as hale, hearty and genia

Mercurial Rheumatism made me a cripple. After trying Hot Springs two years, and the Mercury and Potash treatment until I was a skeleoon and unable to do anything, I was prevailed upon to take a course of S. S. S. After taking three bottles my appetite began to improve, and I gained flesh rapidly. When I had taken twelve bottles I felt as well as lever did. It is now twelve months since I took S. S. S. My health and appetite are good, and I am able to attend to all the business I can get.
